TRR 266 Accounting for Transparency

June 29, 2021

- Tax Transparency is the quality of tax-related information as generated, distributed, received, and processed by economic agents
- In principle this covers a wide array of topics
 - Transparency about tax rules, their application and enforcement ('tax complexity')
 - Transparency about individual taxes
 - Transparency about corporate taxes
 - Transparency about how taxes are being spent by tax levying authorities
- We focus on transparency about corporate taxes
- Tax planning/tax avoidance: legal, tax evasion: illegal
